## Arrow has all the right movers for Supershow

Arrow Caravans will offer remote control Purple Line movers on all its caravans for the first time at the Queensland Caravan, Camping & Touring Supershow which opens tomorrow.

The show runs through to next Monday at Brisbane Showgrounds, and Arrow has an impressive 19 caravans on display on Stand 401.

Among an impressive range of new product debuts is a display of Purple Line e-go caravan movers to demonstrate the latest technology for manoeuvring and hitching vans and trailers.

There will also be nine Bailey models on show, including the Australian-designed Bailey Rangefinder and the latest Condor models, plus Wonderland and Eden, the newest additions to Arrow's offering.

Service manager Neil Gibson said the Supershow was an ideal launchpad for the movers, with 60,000 visitors expected over the next six days.

"It's an opportunity to show thousands of people why remote control movers are a must-have accessory for a well-equipped Aussie van or trailer," he said.

"The e-go Titanium is Australia's best-value mover with its lightweight, powerful motor, and the top-of-the-line e-go Platinum is the mover of choice for big vans up to 3.5 tonnes.

"Naturally, our workshop offers expert installation on any van, whether a sleek on-roader or a rugged off-roader, single or dual axle – pretty much any van you can think of."

... ends

Purple Line e-go caravan movers will be one of several debut products on the massive Arrow Caravans stand at the Queensland Caravan, Camping & Touring Supershow.
