

Power on DEMAND

This portable, precise caravan mover system puts the power to move in the palm of your hand

WATCH IT WORK!

Don't miss next month's issue and DVD of Caravan & Motorhome On Tour to see the E-Go QuickKEY in action!

Four easy steps – that's all it takes to set-up the E-Go QuickKEY power mover from Purple Line before it's primed and ready to make hitching and de-hitching your caravan easier than it's ever been before. Permanently installed movers can weigh your van down and compromise your vehicle's ground clearance. With the E-Go QuickKEY's easy to fit, quick-release brackets the power mover can be conveniently installed when precise manoeuvring in tight spaces is required, and then removed when the job is finished to protect the motor from damage and reduce weight whilst in transit.

Just pull the safety pin, lift and align the E-Go QuickKEY with the brackets, lower and slide the motor into the retaining clip and then reinsert the pin. Once fitted and connected to your 12V battery by means of an Anderson plug, controlling the movement of your van with the E-Go QuickKEY is possible via an intuitive remote control that helps take the risk out of handling otherwise demanding movements. Enjoy lighter travel and increased mobility off-road with a power mover that's always ready when you need it and simple to pack away when you're done. ■

HERE'S WHAT E-GO QUICKKEY OWNERS ALL ACROSS AUSTRALIA ARE SAYING!

"The whole operation worked a treat. My mate was very impressed and operation with the E-Go is better than I could imagine. Once again, thank you for your service."

"We are now the proud owners of an E-Go QuickKEY caravan mover and everything is working beautifully. We congratulate you on the quality of your product and would gladly recommend it to anyone in need of a remote-controlled caravan mover. In fact, we already have... Several times!"

"I am a very independent person with back and shoulder injuries, and this machine takes all of the grunt and groan from hooking and unhooking. Thanks Purple Line for a product that enhances the joys of caravanning."

Accomplish previously troublesome movements with power, precision and ease with the E-Go QuickKEY's handy remote control
